

DUULET EMILIA CRISTINA

MULTIDISCIPLINARY VISUAL DESIGNER

SPECIALIZING IN
BRANDING, MOTION, AND
3D-ENHANCED DIGITAL
EXPERIENCES.

CORE SKILLS

Visual Design

- Branding & Visual Identity
- Marketing & Social Media Design
- Typography & Layout Design
- Art Direction
- Presentation Design
- Print & Digital Design
- Motion Graphics
- Storytelling & Concept Development
- 3D & Interactive Design

3D Modeling & Rendering

- Motion & Animation
- Immersive Visual Experiences
- VR/AR
- Creative Concepts
- Game Asset Design
- Scene Composition & Lighting UI

Digital Design

- UI Design
- Responsive Layouts
- User Experience
- Fundamentals Web
- Visual Design
- Creative Asset

Production AI & Creative

Technologies

- AI-assisted visual ideation
- Workflow optimization using generative AI tools
- Rapid concept exploration
- AI-enhanced production pipelines
- Creative experimentation with emerging technologies

PROFILE

Multidisciplinary Visual Designer with 10+ years of experience creating branding systems, digital campaigns, motion graphics, and 3D-enhanced visual content across print, digital, and interactive platforms. Experienced in managing end-to-end creative execution for multiple clients simultaneously in fast-paced environments. Specialized in combining graphic design, motion, 3D visualization, and emerging technologies to create visually impactful and strategically effective creative work. Strong focus on visual storytelling, rapid execution, and high-quality delivery. Comfortable working autonomously, collaborating directly with clients, and adapting quickly to new creative workflows and AI-assisted production tools.

PROFESSIONAL EXPERIENCE

Freelance Visual Designer — Officina del Mostro

2016 – Present

- Designed and redesigned visual identities for 50+ clients across digital and print platforms.
- Produced branded marketing assets including social media creatives, banners, brochures, presentations, and promotional visuals for over 70 projects.
- Managed full creative workflows from concept development to final delivery while handling multiple parallel projects and deadlines.
- Developed visual communication strategies tailored to different business goals, audiences, and brand positioning needs.
- Integrated 3D elements, motion graphics, and immersive visual techniques into digital campaigns and branded content.
- Created animated assets for digital displays and promotional materials, improving audience engagement and visual storytelling effectiveness.
- Collaborated directly with clients to translate ideas and business objectives into clear, high impact visual solutions.
- Accelerated production workflows through AI-assisted ideation, rapid prototyping, and digital content generation tools

EDUCATION & TRAINING

Master in 3D Animation and Virtual Reality

TECH Global University — 2025

Focus areas:

- 3D asset creation and advanced modeling
- VR/AR environments and immersive design
- Animation, rigging, and motion systems
- Game production workflows
- Visual effects and interactive experiences
- Visual storytelling
- Immersive digital environments
- Animation and interactive media

3D production pipelines Unity Essentials

Unity Pathway

Unity Training focused on:

- UI systems and interactive layouts
- Scene building and lighting
- GameObject management
- 2D asset integration

Fundamentals of 2D Character Design

Tech — Diploma

Course Focused on:

- Character creation for games and animation
- Visual development techniques
- Digital illustration and design workflows

SELECTED STRENGTHS

- Strong conceptual and creative thinking
- Ability to combine aesthetics with business objectives
- High adaptability across creative disciplines
- Fast learning and autonomous execution
- Attention to detail and quality control
- Collaborative and client-oriented mindset
- Comfortable working under pressure and managing multiple priorities
