

DUCULET EMILIA CRISTINA

MULTIDISCIPLINARY 3D ARTIST & INTERACTIVE DEVELOPER

3D ASSET CREATION
INTERACTIVE WEB DEVELOPMENT
VISUAL & SPATIAL SYSTEMS

CORE SKILLS

- **3D & Game Art:** Character & Asset Modeling, High-Poly Sculpting, Retopology, PBR Texturing, Lighting, Game Engine Integration.
- **Web & Interactive:** WebGL / Three.js Systems, Custom Front-End Development, UI/UX Design, Responsive Layouts, Interactive Prototyping.
- **Visual Systems:** Brand Identity, Motion Graphics, Spatial & Scenography Design, Digital & Print Campaigns.
- **Manufacturing Tech:** STL/STEP Engineering, CNC/3D Print Preparation, Tolerances & Assembly.

SOFTWARE & TECH STACK

- **3D & Real-Time Engines:** ZBrush, Blender, Maya, 3ds Max, Substance Painter, Unreal Engine (Blueprint/C++), Unity (C#).
- **Web & Coding:** WebGL, Three.js, React, HTML5/CSS3/JavaScript, C++, C#, Git/GitHub.
- **Design & Motion:** Adobe After Effects, Photoshop, Illustrator, InDesign, Figma
- **AI & Production Workflows:** ChatGPT, Claude, Midjourney, Generative AI pipelines for rapid prototyping

PROFILE

Multidisciplinary 3D Artist & Interactive Developer with a foundational background in Scenography and 10+ years of professional design experience bridging 3D asset creation, real-time engines, and custom web development. Specialized in transforming visual concepts into high-performance digital and physical products—from game-ready assets and WebGL experiences to CNC/STL manufacturing and branding systems. Proven track record in managing end-to-end creative production, combining technical precision with strategic visual design.

SELECTED STRENGTHS

- Strong conceptual and creative thinking
- Ability to combine aesthetics with business objectives
- High adaptability across creative disciplines
- Fast learning and autonomous execution
- Attention to detail and quality control
- Collaborative and client-oriented mindset
- Comfortable working under pressure and managing multiple priorities

LANGUAGES

- Italian — Native
- English — Advanced
- Spanish — Proficient
- French — Intermediate

WORK EXPERIENCE

Freelance 3D Technical Artist & Interactive Developer — *Officina del Mostro* 2016 – Present | Turin, Italy

- **3D Asset & Physical Production:** Engineered 3D models and spatial visual assets for 30+ product lines, optimizing files for real-time engines (Unity/Unreal), WebGL viewyers, and physical CNC/3D printing manufacturing.
- **Interactive & Web Development:** Developed custom, responsive websites and branding portals (WordPress) for client projects, while engineering WebGL and 3D interactive interfaces through dedicated personal R&D and portfolio systems.
- **Brand Systems & Motion:** Designed cross-media visual identities and motion graphics campaigns for 50+ clients across digital and print platforms.
- **Project & Technical Leadership:** Managed full-cycle creative workflows from concept to final code/manufacturing deployment, handling complex technical specifications under tight deadlines.

EDUCATION & CERTIFICATIONS

Master in 3D Animation and Virtual Reality — *TECH Global University* (2025)

Focus: 3D character sculpting, VR/AR environments, rigging, real-time optimization, and game production pipelines.

Unity Essentials Pathway — *Unity Training* (2024)

Focus: UI systems, interactive layouts, scene lighting, and C# scripting fundamentals.

Diploma in Fundamentals of 2D Character Design — *TECH University* (2024)

Focus: Visual development, character design, and digital illustration

Continuous Professional Development: Multiple specialized certifications in Advanced ZBrush, Web Development, and Game Engine Workflows (Udemy / Self-directed).
